ABOUT US

DESKTOP CREATORS – YOUR TRUSTED IT SOLUTIONS
PARTNER SINCE 1999

Desktop Creators is a well-established IT infrastructure solutions provider, proudly serving Gujarat since 1999. With over 25 years of experience, we specialize in delivering tailored corporate enterprise solutions, including cloud-managed network infrastructures, advanced firewall configurations, and robust digital systems that power businesses forward.

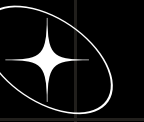

As an authorized HP World Partner since 2002, we are committed to delivering trusted products and top-tier service. In addition to enterprise services, we supply a wide range of computer hardware — including notebooks, desktop PCs, printers, and accessories — catering to both individual and business needs.

Our strengths lie in:

- A proven track record of over two decades
- Strong partnerships with leading global brands like HP, Hikvision, SOPHOS, Synology, QNAP, OPTOMA, Canon, and many more
- A broad product portfolio that supports every customer — from home users to large-scale enterprises
- Sourcing from trusted vendors to ensure consistent quality
- A skilled and customer-focused team trained to provide personalized recommendations and reliable after-sales support

At Desktop Creators, we believe in building trust and delivering on our promises. Whether you're looking for IT infrastructure, security systems, or reliable tech support, we are your dependable local partner — committed to excellence, innovation, and customer satisfaction.

PLACES WHERE WE PROVIDE SERVICES

AWAITING FOR YOUR POSITIVE RESPONSE

IT AMC: ANNUAL MAINTENANCE CONTRACT

IT AMC provides comprehensive maintenance including hardware and software support, network management, data backup, security measures, helpdesk support, system health checks, documentation, emergency response, and IT consultation.

HARDWARE MAINTENANCE	Regular inspection, cleaning, and maintenance of servers, desktops, laptops, printers, networking equipment.
SOFTWARE SUPPORT	Updates, patches, and troubleshooting of operating systems, software applications, antivirus programs.
NETWORK MAINTENANCE	Monitoring, management, and optimization of the network infrastructure, including switches, routers, firewalls.
DATA BACKUP AND RECOVERY	Data Backup and Recovery: Scheduled backups, testing of backup systems, and assistance with data recovery in case of data loss.

SECURITY MANAGEMENT	Implementation and maintenance of security measures such as firewalls, intrusion detection systems, antivirus software.
HELPDESK SUPPORT	Remote and onsite technical support for users, resolving issues and providing assistance with IT-related queries.
REGULAR HEALTH CHECKS	Periodic health checks of IT systems to identify and address potential issues before they escalate.
DOCUMENTATION AND REPORTING	Documentation of maintenance activities, reports on system performance, and recommendations for improvements.

CCTV AMC: CLOSED-CIRCUIT TELEVISION ANNUAL MAINTENANCE CONTRACT

Both types of AMCs are crucial for ensuring the smooth operation and longevity of IT infrastructure and security systems, minimizing downtime, and optimizing performance. They provide peace of mind to the client by offering proactive maintenance, timely support, and expert advice.

CAMERA MAINTENANCE	Inspection, cleaning, and adjustment of CCTV cameras to ensure optimal performance and image quality.
DVR/NVR MAINTENANCE	Maintenance and configuration of DVRs or NVRs for video storage and playback.
SYSTEM HEALTH CHECKS	Regular checks of the entire CCTV system, including cameras, cables, connectors, and recording devices.
SOFTWARE UPDATES	Installation of firmware updates and software patches to address security vulnerabilities and improve functionality.

REMOTE MONITORING	Remote monitoring of CCTV systems to identify issues such as camera malfunctions or recording errors.
STORAGE MANAGEMENT	Optimization of storage space on DVRs/NVRs, archiving of old footage, and expansion of storage capacity if needed.
24/7 TECHNICAL SUPPORT	Availability of technical support round the clock to address urgent issues and emergencies.
TRAINING AND COMPLIANCE	Conducting training sessions for staff on effective CCTV system use and troubleshooting, while ensuring compliance with regulations and data privacy standards.

Each project requires meticulous planning, expertise in relevant technologies, and a focus on meeting the unique requirements of the client and the environment in which the systems will operate. Collaboration with stakeholders and ongoing support are essential for successful implementation and long-term effectiveness.

THANKING YOU
